Azi Cohen

Thursday, April 20, 2023

8:00 pm • In-Person Event

at Temple Beth Sholom, 401 Roslyn Road, Roslyn Heights NY 11577

Azi Cohen is an entrepreneur who works in the Israel High Tech community.

He served in the Israeli Air Force for more than thirty years, nine years in active service as a pilot. He flew 1,500 hours with 150 missions behind enemy lines.

On October 16, 1986, Azi led an air strike mission in Lebanon, when one of the planes participating was shot down, and Ron Arad, one of the pilots, was taken captive by members of the Islamic Fundamentalist Militia (AMAL).

Thirty eight years have passed since Ron was taken from us. Azi Cohen will share the events of the day - what went wrong - what occurred after and what we have learned since then.

This discussion will help us understand who Ron was and why it is so important to keep his memory alive.

RSVP by April 13

Zoom link will be sent upon registration for this event.
